**Important information to note about your deferral elections:**

- An account must be established with the investment provider prior to completing this process.
- Deferrals sent to an investment provider without an active account will result in a returned contribution.
- Salary deferral requests must be submitted 30 days before the effective date for your districts payroll cycle.
- If your request is not submitted in time to make the change requested for the current pay cycle, it will be effective for the following pay cycle.
- Online salary deferral changes are submitted to your district the following business day. Your changes will be applicable for the next available date.
- The change submitted online will supersede any instructions that you currently have on file.
- If multiple changes for the plan are submitted on the same day, the last entry will be considered the requested change.
- If you wish to continue an existing deferral to a vendor, and are adding or changing another vendor, you will need to enter the vendor and amount you are retaining. If you do not, the deferral to that vendor will be cancelled.
- If you want to have different amounts for future payroll deferrals, you will need to submit a change during each deferral period or submit the SRA with a future date. The PlanVue™ system does not allow future dated requests.
